Through this channel, I would like to inform you that, since last March 31 of this year, Bachelor Marina Elizabeth Rodriguez Ramos no longer is part of the administrative team at National AMPI.

The latter because of personal reasons, therefore she decided to terminate her employment relationship with the Association.

As expressed in the other document, the International Coordination operates normally and will continue the follow-up and management of the current and future projects- throughout agreements and negotiations- with organisms beyond our borders.

Without further information, receive a cordial greeting.

SINCERELY,
